# Best Practices in Person-Centred Dementia Care in Indigenous Contexts

We are carrying out a study on best practices in dementia care for Indigenous populations. Your input in this research will help us to develop recommendations for clinical directions in dementia care for Indigenous populations.

**ARE YOU AN INDIGENOUS PERSON  
LIVING WITH DEMENTIA OR  
PRIMARY INFORMAL CAREGIVER TO  
SOMEONE LIVING WITH DEMENTA?**

**We invite you to a series of:**

- 3 Sequential sharing circles (1 hour each) to hear of your lived experiences
- 2 Consensus building meetings (1.5 hours each) as part of a co-analysis process for best practices

For your participation, we offer a 50\$ honorarium for each focus group and \$200 for each consensus building meeting. Your input will be kept anonymous.
